Profile Summary

I am Mehdi Esmaeelnezhad, a dedicated web developer with over 5 years of hands-on experience in building and maintaining web applications. As a self-taught programmer, I have developed a strong proficiency in modern technologies like React, Vue, and Blazor. Throughout my career, I have worked on diverse projects, ranging from dynamic user interfaces to full-stack applications. My passion for learning and problem-solving drives me to continuously improve my skills and take on new challenges. I am eager to join a professional team where I can contribute my expertise while further developing my knowledge in a collaborative environment.

Skills

- JavaScript
- React
- C#
- typeScript
- Vue
- blazor
- Version Control (Git)

Work Experience

June 2019 - December 2019

front-end developer

Iran Autism Organization
Tehran, Iran

Tasks and Achievements

- It is an online exam project developed with React, which is open source and related to an autism organization. This system includes multiple-choice and fill-in-the-blank tests, provides the user with the test results, and displays progress using charts. MUI has been used for styling the project

October 2019 - April 2021

Front-End Developer

Mabna Intelligent Computing(Amirkabir University)

Tehran, Iran

Tasks and Achievements

- As part of a team at Amirkabir University, I contributed to the development of a React-based web application focused on the petrochemical and transportation industries. The project involved building a robust and scalable platform to manage key operations, including data processing, logistics, and resource management. I collaborated with cross-functional teams to integrate industry-specific features, ensuring optimal performance and user experience. This project enhanced my skills in front-end development, problem-solving, and working in a collaborative academic environment.

April 2021 - September 2022

Front-End Developer

Kanoon Ghalamchi

Tehran, Iran

Tasks and Achievements

- I worked on the development of the schools' website and the management panel for Kanoon Ghalamchi, focusing on enhancing both user interface and admin functionalities. The project involved implementing dynamic and responsive features using React, improving the overall user experience for students, teachers, and administrators. I was responsible for developing key components, ensuring smooth integration with backend services, and optimizing the platform for better performance and scalability.

September 2022 - February 2024

full-stack developer

toptis

Tehran, Iran

Tasks and Achievements

- As a full-stack developer, I worked on a website builder project for one of the companies under the Top Tours Holding. The backend and management panel were developed using Blazor Server-Side, with ABP framework integration, while the client-side was built with React. The project was designed to create a website builder similar to WordPress Elementor, enabling users to drag and drop components to design their websites easily. I contributed to both front-end and back-end development, focusing on seamless interaction between the user interface and server, ensuring a smooth and dynamic website creation process

March 2024 - Present

SeniorFront-End Developer

3click

Tehran, Iran

Tasks and Achievements

- As a senior front-end developer at a tourism company, I work on projects using both React and Vue. My primary focus is on the company's website, specifically on a mapping project to precisely match hotels to their geographic locations. I develop features that calculate region coordinates and analyze hotel coordinates to determine their exact location within a city. Additionally, I contribute to filtering flights based on airline, flight time, duration, and hotel filtering based on price, star rating, and artificial intelligence-based recommendations. This project utilizes Vue and Nuxt.
- I also contribute to the management panel by developing financial charts and company documents using ApexCharts, providing real-time data visualization and insights for company operations
