

MAHDI ESMAEELNEZHAD

WEB DEVELOPER

PROFESSIONAL SUMMARY

I am a 26-year-old web developer with 6 years of experience in the field. Despite my academic background in Veterinary Medicine, my strong passion for technology led me to self-learn programming, becoming proficient in JavaScript and Python. I am skilled in modern web development, with hands-on experience in React, Vue, Angular, C#, Blazor, SQL, and Django, and I am highly motivated to continuously learn and apply cutting-edge technologies to solve real-world problems.

WORK EXPERIENCE

Tipax Representatives Management Panel

Frontend Team Lead Project, August 2025 – Present

- Led the frontend team in designing and developing the Tipax Representatives Management Panel using React, TypeScript, and Material UI.
- Defined architecture, implemented reusable components, and established state management patterns to improve performance and maintainability.
- <https://tipaxco.com/>

Refah Barcode Scanner Application(Tosan Techno)

Senior Frontend Development Project, March 2025 – Present

- Developed the frontend of a barcode scanner application for Refah retail stores using React.
- Researched and implemented real-time communication between barcode scanners, POS devices, and payment systems
- <https://www.tosantchno.com>

3click (Deltaban)

Frontend Development Project, March 2024 – June 2025

- Developed and maintained web applications using Vue.js and Nuxt, including migration from Nuxt 2 to Nuxt 3.
- Researched modern frontend architectures and implemented performance and SEO improvements.
- <https://3click.com>

TopTours Custom CMS Platform

Full stack Development Project, February 2023 – February 2024

- Contributed to the design and development of a custom CMS inspired by WordPress Elementor.
- Researched and implemented a dynamic front-end builder interface using React, integrated with a Blazor Server admin panel.
- <https://app.touristpanel.ir>

Kanoon Ghalamchi Educational Platform

Frontend Development Project, September 2022 – April 2023

- Developed and enhanced the school website and management panel using React.
- <https://www.kanoon.ir>

Mabna Intelligent Computing (Amirkabir University)

Frontend Development Project, March 2021 – July 2022

- Developed a web application using React for transportation and petrochemical industry use cases.
- Designed and built a custom file uploader supporting multiple formats (images, PDF, Word) with upload and preview capabilities, improving usability and system efficiency.

ACADEMIC HISTORY**Doctor of Veterinary Medicine (DVM) | 2018–2025**

Islamic Azad University, Science and Research Branch, Tehran
