SUMMARY

Senior React Developer with 5+ years designing, developing, and documenting software solutions for product user interfaces across 6 professional roles in logistics, retail, tourism, and education. Strong proficiency in JavaScript, TypeScript, React.js, Next.js, HTML, CSS, and Tailwind CSS, with production work in Material UI, Redux, Context API, REST APIs, HTTP, and Git. Proven teamwork, collaboration skills, communication, attention to detail, a creative approach to problem-solving, and the ability to work independently and self-manage assigned tasks under pressure. Experienced in reusable components, code reviews, troubleshooting, technical documentation, unit testing, and end-to-end (E2E) testing with Playwright. Additional familiarity with React Native, iOS/Android concepts, Docker, cloud technologies, Swagger, Postman, Chrome DevTools, Jest, Jira, and ClickUp.

SKILLS

Frontend & User Interfaces: JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, HTML, CSS, Material UI / Material, React Native, Vue.js, Nuxt, reusable components and libraries

State, APIs & Quality: Redux, Context API, HTTP, REST APIs, WebSocket, Postman, Chrome DevTools, Swagger, Jest unit testing, Playwright E2E testing

Delivery & Collaboration: Git, npm, Docker, cloud technologies, technical documentation, code reviews, troubleshooting, Jira, ClickUp, teamwork, collaboration skills, communication, attention to detail, creative approach, ability to work independently

Also used: Node.js, Blazor, Python, Go, PostgreSQL, MongoDB, Redis, JWT

PROFESSIONAL EXPERIENCE

Frontend Team Lead — Tipax

Aug 2025 - Aug 2026 · Representatives Management Panel · Tehran, Iran

- Designed, developed, and documented scalable React.js, Next.js, and TypeScript user interfaces with Material UI and Tailwind CSS for the Tipax representatives management panel.
- Built a reusable React component library and Redux / Context API patterns reused across 10+ screens, cutting duplicated UI work for a 4-person frontend team.
- Led code reviews and improved workflows, toolchain, and technical documentation, shortening onboarding for new teammates and keeping architecture consistent.
- Added Jest unit tests for shared components and Playwright E2E coverage for critical representative flows, reducing regression risk before each release.
- Troubleshoot and optimized the React codebase using Git, Chrome DevTools, and REST APIs, delivering on time through teamwork, communication, and the ability to work independently under pressure.

Tech: React.js · Next.js · TypeScript · Tailwind CSS · Material UI · Redux · Context API · Jest · Playwright · Git

Senior Frontend Developer — Tosan Techno

Mar 2025 - Aug 2026 · Refah Barcode Scanner App · Tehran, Iran

- Developed React.js user interfaces for a barcode scanner application used in Refah retail stores, focusing on maintainable, readable frontend code and attention to detail.
- Implemented real-time HTTP / WebSocket flows across 3 systems — scanners, POS devices, and payment — and verified integrations with Postman and Chrome DevTools.
- Wrote unit tests and Playwright E2E scenarios for scan-to-payment paths, then deployed, maintained, and troubleshoot store-facing screens while self-managing assigned tasks.

Tech: React.js · JavaScript · WebSocket · HTTP · REST APIs · Playwright · Jest · Postman · Chrome DevTools

Frontend Developer — 3click (Deltaban)

Mar 2024 - Jun 2025 · B2C Platform · Tehran, Iran

- Built and maintained production user interfaces with Vue.js, Nuxt, HTML, CSS, and Tailwind CSS for a B2C travel platform, using collaboration skills with product and backend specialists.
- Migrated Nuxt 2 to Nuxt 3 and improved performance and SEO of the shared component layer, reducing technical debt while shipping product updates on schedule with Git and REST APIs.
- Covered key booking and listing flows with unit tests and Playwright E2E tests so regressions were caught before production.

Tech: Vue.js · Nuxt 2/3 · Tailwind CSS · HTML · CSS · REST APIs · Git · Playwright · SEO

Full-Stack Developer — TopTours

Feb 2023 - Feb 2024 · Custom CMS Platform · Tehran, Iran

- Implemented React.js and Next.js prototypes and a drag-and-drop frontend builder from wireframes and UI/UX designs, applying a creative approach to reusable page-builder components.
- Connected the React UI to a Blazor Server admin panel over REST APIs and documented setup plus complex builder behavior so the team could extend 20+ tourism page layouts without rewriting core UI.

Tech: React.js · Next.js · JavaScript · Tailwind CSS · Blazor Server · REST APIs · Technical Documentation

Frontend Developer — Kanoon Ghalamchi

Sep 2022 - Apr 2023 · Educational Platform · Tehran, Iran

- Developed React.js screens for the school website and management panel, improving user-interface flows and REST API integration with strong attention to detail and clear communication with stakeholders.

Tech: React.js · REST APIs · HTML · CSS · User Interfaces

Frontend Developer — Mabna Intelligent Computing

Mar 2021 - Jul 2022 · Amirkabir University · Tehran, Iran

- Developed React applications for transportation and petrochemical use cases and shipped a multi-format file uploader with image, PDF, and Word preview, removing repeated manual document-handling steps across 3 file types.

Tech: React.js · JavaScript · File Upload · PDF Preview

SELECTED PROJECTS

Orbit Task Platform — GitHub

Team task-management backend with JWT, Redis, Swagger docs, and Docker Compose. Practiced technical documentation, REST APIs, container workflows, and API-level unit tests across 1 production-style service.

Tech: Node.js · REST APIs · Swagger · Docker · Redis · JWT · Unit Testing

Angular Smart Table Pro — GitHub

Reusable data-table library with virtual scroll, server-side datasource, drag-and-drop, and Excel export — the same reusable-component mindset used in React and Next.js product work.

Tech: Angular · Reusable Libraries · Virtual Scroll · Excel Export

ConfigKit & Job Crawler Suite — GitHub

Type-safe Go configuration library (JSON/YAML/TOML/ENV) and a Python toolkit that crawls Iranian job listings and exports Excel results over HTTP. Part of 4 public open-source projects and 10+ public repositories.

Tech: Go · Python · HTTP · Validation · Excel Export

EDUCATION

B.Sc. in Software Engineering

Islamic Azad University, Science and Research Branch · Tehran, Iran

Bachelor's degree in Software Engineering with focus on software design, programming, and building production web applications with React.js, Next.js, TypeScript, and Tailwind CSS.

LANGUAGES

Persian — Native · English — Professional working proficiency
